Attachment 31

Inspector General's Recommendation Number 31, Page 95

Recommended DCI Action: Approve as modified.

Inspector General's Statement

Recommended that:

25X1A6a

Chief of Station, [REDACTED], cut down the overtime of Station personnel, grant normal leave, and in general reduce the pressure on his staff to bring the Station activity in line with its cover.

DD/P Comment

Concur with modification. We agree in principle with this recommendation and will discuss with the Chief of Station the work pattern of the Station to see if the pressure on his staff can be reduced. If, however, a choice needs to be made between carrying out essential operations and closer adherence to Embassy work hours, the choice should be the former.
